
AREX PRO

AREX D.O.O. ŠENTJERNEJ

For 25 years AREX has developed innovative products, enabled by evenly innovative production methods.

Our heritage is from the tooling industry where precision and quality found their way under our skin. We then gradually shifted to the defense sector and through our new ideas and creative engineering, we became the industry leader in several areas.

INDEPENDENCE TROUGH PARTNERSHIP

We believe in independence in order to control the quality of both our products and our logistics. This is why we still make our own tools and even our production lines are designed and made in-house. In fact, we made several ammunition manufacturing lines so uniquely well that they are now being sold and installed globally as their own product.

We can truly claim that we have worked with nearly all of Europe's best and finest names in the ammunition industry and now, through our close partnerships, we are establishing ourselves in both North and South America. This means we can focus on innovation in development and production and still remain in a strong market position.

DELTA GREY WOLF

DELTA GREY WOLF

NSN: /
SKU: 602822
CIP

Based on our successful striker-fired polymer government pistol series DELTA GEN.2, the new DELTA GREY WOLF has been extensively optimized for the LIGHT DIVISION sports market. It's tuned right out of the box.

It features fully adjustable rear sport sights and fiber optic front sight for better target acquisition. Red Dot optics can still be mounted at any time due to the multi-modular OR plates. The extended cold hammered threaded barrel stands for high precision and comes standard with a new recoil reducing mini compensator.

The extended magazine button and the adaptive sport jet funnel improve the required performance in competition. High capacity magazines keep you on target longer, a new surface treading process enables a convincing reduction of the trigger weight - right out of manufacturing.
Performance and Precision - it's all you need.

DELTA GREY WOLF

UPGRADES

COMPENSATOR DELTA/ALPHA/ZERO 9X19 KIT 602939

The Sport Compensator enables an unprecedented increase in performance and provides a significant reduction in muzzle rise.

DELTA +7MAG EXTENSION KIT (COMING SOON)

The magazine is extendable up to +7 with the magazine tuning kit.

DELTA GREY WOLF 6" + CONVERSION KIT 6" (COMING SOON)

A standalone 6"/ 9mm Conversion Kit & a fully assembled 6"/ 9mm DELTA GREY WOLF will be available by Q3 of 2024.

PRODUCT

FEATURES

- Striker Fired Pistol
- Optic-ready including 5 types of various adapter plates
- Removable front and rear insert, front insert serialized
- Automatic Triple Drop Safety system (3DS)
- 4 interchangeable backstraps
- Mil-Spec Picatinny rail in front
- Aluminum jet funnel
- Extended magazine release button
- Windage adjustable sights
- Delta AP trigger
- Mini compensator
- Factory tuned for sport using our 3P System

DELTA GEN.2 FAMILY

DELTA GEN.2 FAMILY

NSN: 1005-42-000-3342
SKU: 602412
CIP

The AREX DELTA GEN.2 is extra thin, compact and light enough to be carried concealed while providing the capability for serious personal protection. The AREX DELTA GEN.2 is the perfect striker-fired pistol for duty carry because of its enhanced safety features, reliability and durability. With a low bore axis and clever weight distribution it enables you to shoot fast follow-up shots with precision difficult to find in other compact pistols.

DELTA X
FULL SIZE FRAME

- Shorter Barrel and Slide
- Shorter Grip

DELTA M
COMPACT FRAME

ERGONOMICS

With a low bore axis and a high grip cut, the DELTA GEN.2 has low recoil and is more steady on follow-up shots. The different backstraps allow you to set up a preferred grip angle, customizing your handgun even further.

LOW BORE AXIS & GRIP ANGLES

Standard with every DELTA GEN.2 come four interchangeable backstraps in sizes S, M, L and XL.

In our careful development process we made sure that they cover the broadest percentile of the shooter's ergonomic needs.

DELTA GEN.2 TACTICAL

NSN: 1005-42-000-3346
SKU: 602603
CIP

The AREX DELTA GEN.2 TACTICAL is an unquestionably reliable tactical handgun that is ready to deliver whenever and wherever you are. It features an extended threaded barrel that you can equip with a sound moderator or any other muzzle device. It has the same striker double-action trigger as the standard DELTA GEN.2 model as we have found it to be safer than a fully-cocked single-action striker.

MT-X TRAINING

Force-on-force is becoming more and more popular with professionals and civilians alike and AREX is here to make it as accessible as possible, offering ammunition, conversion kits and dedicated training weapons that are CIP Certified. With AREX MT-X, force-on-force training has never been so simple.

MIL/LE - TRAINING

MT-X TRAINING SOLUTIONS

NSN: /
SKU: 602305
CIP

Goodbye to poor accuracy and countless hours of clearing weapons. Training is supposed to be hassle-free and your equipment should allow you to focus on how to best solve your tasks – this is exactly why we developed the latest in simulating ammunition. Compatible with most training weapons out there, the only thing you need for upgrading your training is the ammo. Non-toxic primer and PH neutral paint makes this simulation round safe to both shoot and be shot with. Accuracy comes with no extra cost.
